

Green Frog Feet

BAND

BIO

Green.Frog.Feet are beyond any doubt, one of the most sensational newcomers at the moment. Put the guys on stage, and it will definitely be on fire – as impressively proved by the quartet about over 500 times in the meantime. The guys hit the bull's eye with a cogent show, style and pop-punk-sound, and are advancing to be Germany's punkrock export hit!

The first own-produced album called "Sex, Frogs & Rock'n'Roll" was done in 2001 and helped the guys into the over-surrounding scene and opened the door to the well-known management "Modern Noise". After a few band member changes the second album "SCORE" was released in 2004, which should be a milestone to the previous album and catapults the band on the way of success. So hit the single "RIOT GIRL" in 2005 the Swedish single charts at #33 and left behind bands like Foo Fighters and Green Day. Moreover they got BEST NEWROCKER 2005 at MTV ROCKZONE and could perform their song "SCORE" at the famous TRL-Stage. It follows the German-Toursupport in 2006 of the Canadian Pop-Punk-Kings "SIMPLE PLAN" as well as SILVERSTEIN and MXPX from USA.

In February 2007 it follows their 3rd album "11 ways to kill your idols", and the signing of an indie-record-deal with MODERN NOISE. The album was released in nearly whole Europe, as well as JAPAN and in the meantime it is available all around the world. After release the second European-tour started through countries like Germany, Austria, Switzerland, Czech Republic, Italy, Sweden and Denmark. Their two single-songs "To all the heroes" and "All capriccio" got chart-entries at the "German alternative charts" (DAT 20-Charts) and hit many official radio-stations as well as private once and college-radios.

A further big highlight in July 2007 was supporting the US-Superstar P!NK in Bavaria/Germany in front of 14.000 visitors. Besides the band shared the stages with a lot of famous bands like Dog Eat Dog (USA), Jennifer Rostock (GER), Itchy poopzkid (GER), The Hives (SE), UK Subs (UK), The Exploited (UK), Sick of it all (USA), The Killers (USA), Beatsteaks (GER), NO USE FOR A NAME (USA), MOBY, H-Blockx (GER), Die Happy (GER), Donots (GER), Itchy poopzkid (GER), The Busters (GER), Such a Surge (GER), and many many more...and played moreover the German-tour-support for "LESS THAN JAKE" (USA) in June 2009.

The big throw the boys had in 2009 with their production of their 4th Longplayer "On top of the bottom", which were released in July 2009 via MODERN NOISE / ROUGH TRADE. "On top of the bottom" shows more different styles and emotions than any album before. They released their first poppy hit-single "It's okay" together with a music-video, which was rotating on many different TV-stations (in GER/AUT/CZ) like GoTV, iMusic TV, Mc Donalds Instore TV, Streetclip, Clip 21, Just Music TV, Ceske Televize and many local TV stations. That song also hit the DAT 20 and Native-charts in the max. time period of 10 weeks with peak on #3. The second single became "Capricorn" which hit also DAT 20-charts. Both singles rotate on many public radio-stations as well as private once, internet- and college-radios.

As result of that the guys have nowadays a big fanbase in Germany as well as in the neighbour-countries.

So keep your eyes peeled and don't miss out on that.

The guys are kind of a starting rocket !!!
